

## What is it?

A veterinary health product (NN.C4X5) made from activated Leonardite with a high content of natural humic acids – mechanically processed without the use of solvents. Intended for cats & dogs for the maintenance of good health.

- ✓ A factor in the maintenance of good health
- ✓ Supports the normal function of the immune system
- ✓ Helps maintain a healthy digestive system

**Humac Natur Activ's efficacy has been demonstrated in over 25 peer-reviewed scientific studies as well as customers continue to see its effects in the EU over the past 10 years.**

**Powder 0 – 200 µm  
100 & 500 g packaging  
Includes measuring spoon**

**Canadian Distributor:**

**Humac Canada Resources Inc.**  
600-1285 West Broadway  
Vancouver, V6H 3X8  
British Columbia, Canada

# What makes HUMAC Natur Activ effective?

- ✓ **Retains the physico-chemical properties of natural humic acids:** science has shown the diverse properties of humic acids and the role they play in animal health, soil health and overall balance of the environment.
- ✓ **Free of solvents – is not manufactured using the conventional alkaline extraction method:** the use of NaOH or KOH during manufacturing creates ionic compounds which shares little resemblance to the power of humic acids as nature intended
- ✓ **Natural humic acids are non-soluble:** means that HUMAC Natur Activ carries out 100% of its intended purpose in the digestive system with no risk of residues

HUMAC Natur Activ is manufactured according to the GMP+FSA standards

## Directions for use:

Intended for cats and dogs. The product is administered once daily on food or with each meal in divided doses up to the recommended amount. Recommended dose is 0.2 g/kg body weight. Simply use the provided measuring spoon to sprinkle the powder with the pet food and mix. i.e. 5 kg dog \* 0.20 g = 1.00 g mixed with food.

- 1 - 6 kg: 200 mg - 1.2 g
- 7 - 12 kg: 1.4 g – 2.4 g
- 13 - 18 kg: 2.6 g – 3.6 g
- 19 - 24 kg: 3.8 g – 4.8 g
- > 25 kg: >5 g

# What do customers say?

See what customers from our European partners in Slovakia, Hungary, Ireland say.

"From an early age, one of our puppies' paw was cracked, often cracked to the flesh. We tried everything, but nothing changed. We started giving HUMAC 2 weeks ago, we bought it only to strengthen immunity, but I noticed that his paws are no longer dry at all, that they don't crack. They are completely natural. Thank you very much."

Andrea, Slovakia, 19/08/2022

"The dog is doing better :) I also use other supplements, but after about two weeks of using HUMAC, the dog's digestion improved, and what pleased me the most, the fur no longer falls out, and the strange smell of the breath also disappeared."

Katarina B., Slovakia 18/01/2023

"I decided to try Humac because my two dogs have sensitive digestion and sometimes had bloody diarrhea. I give them a mocha teaspoon of canned powder daily and they are fine. Before, even daily eating of certified canned food would cause them problems. Deworming was also problem-free. So I am satisfied and will order a bigger package next time."

Irena M., Slovakia, 10/09/2022

Frequent scratching, head shaking, sometimes eating grass I have a 15-year-old BOxNO. She often scratched me, she was always given Apoquel 16mg, which I was not satisfied with because of the unwanted effects, so we ended up on an ampoule of Cytopoint approx. once every three months ... and then again ... each time at the vet costs roughly 130 EUR. I was quite skeptical about your Humac, in the end I gave it a chance and ordered it. After a week, she scratched less and less until I feel like she doesn't scratch at all :-). So I have to "knock on wood," keep it up and many thanks from Sisinka :-)

Our 2-year-old dog Maxi, who is healthy, receives humac as an immune booster. Unfortunately, he was attacked by giardia in the last month, but the humac served very well in addition to the antibiotic treatment and quickly restored Maxi's intestinal system. It is very reassuring that humac is there armed and ready 😊 and helps if there is a problem. ❤️

Agnes A., Hungary, 26/03/2023

“I bought HUMAC Natur AFM powder when my cat was poisoned by a houseplant. She had diarrhea and this powder got her out of it. Since then, I have been mixing Humac powder to her feed preventively, and if she has any intestinal problem, I increase the dose. Perfect product.”

Katie, Ireland.

“Our dog Karinka is using HUMAC for a while now and we can see loads of improvements on her in general, specially on hair loss - her coat looks great ( and I know that the nutrition is happening inside out). Totally recommend it, thanks to HUMAC family!”

Satisfied customer, Ireland
